## Golden Seal & Echinacea Extract 4 fl. oz.

Manufacturer: Pure Herbs, LTD.

Below is about historical observations and historical data relating to herbs. This document is not intended to be a substitute for medical advice by license physicians. All readers should consult a physician regularly in all matters related to medical problems. This includes the diagnoses and treatment of disease and all other physical and mental conditions.

Historically, the herbs in this combination were used at the request of practitioners, of two potent antibiotic herbs. One very visual test of Golden Seal's quick antibiotic abilities is when applied externally to clear up Impetigo (a highly contagious skin condition characterized by numerous "crops" of puss filled eruptions). Golden Seal is also noted for its ability to act as a catalyst, that is to say, an agent which can make something work better and faster, or slower if needed, without being changed permanently itself in the process. Golden Seal gets the best out of other herbs it works with, as well as doing a first class job itself at the same time. Echinacea is also noted as a potent immune system builder, as well as a surgeon without a knife. Echinacea, in this respect, works very well on even chronic swellings and old walled-off conditions such as cysts. Be sure to use a bowel maintenance program with Echinacea or Echinacea combinations as it is very necessary to be able to empty the wastes that are being cut loose, otherwise nausea can occur. When giving Golden Seal for an extended period of time, be sure to give a B-Complex source as well, such as 80 drops of Rice Bran Extract 3 times per day, or a cup of regular milk yogurt, as Golden Seal may also kill the "friendly bacteria" that normally live in a healthy bowel and produce B-Complex. When Echinacea does its work, as the surgeon without a knife, to rid the body of old walled off debris or cysts or just debris, the bowels must be open to prevent a "sick feeling". (SEE: Cascara Sagrada, C.C.E.-W, Buckthorn, for bowel maintenance information) (SEE: Golden Seal See: Echinacea for additional information) COMBINATION:Golden Seal, Echinacea. DOSE:Internally, 40 drops, 3 times per day. Externally, apply to the troubled area as needed. For cysts, apply directly to the skin, Vitamin E from 100 i.u. capsules (International Unit, i.u., a measure of liquid vitamins), Oil of Cajeput, and Herbal Adj. Then, saturate a single layer of absorbent gauze or natural fiber cheese cloth and lay this over the troubled area. Cover with plastic sandwich wrap and fix in place for overnight. The next morning, remove the application and discard it. Wash the area and allow to dry. Then, repeat this procedure for the daytime. Repeat until well.\*This product has not been evaluated by the Food and Drug Administration.
