

LYMPHATICS AND GLANDS > LC-W (Lymphatic Cleaner combination) 4 fl. oz.

LC-W (Lymphatic Cleaner combination) 4 fl. oz.

Manufacturer: Pure Herbs, LTD.

Below is about historical observations and historical data relating to herbs. This document is not intended to be a substitute for medical advice by license physicians. All readers should consult a physician regularly in all matters related to medical problems. This includes the diagnoses and treatment of disease and all other physical and mental conditions.

LC-W(Lymphatic Cleaner combination) - Problems with tonsils, adenoids, polyps (overgrowth of tissue resulting in blockage), ear congestion, eye congestion, swellings and abnormalities of the spleen, swollen arms, ankles, fingers and around the middle, result from blocked, stagnant lymphatics. The lymphatics are a series of tubes and circulatory channels which carry a fluid similar to blood, except the red blood cells have been filtered out. You can see this filtered blood in what is commonly called a "water blister". Lymph's job is to circulate where the thicker fluid (known as blood) cannot go. Since lymph is circulated mostly by exercise, rather than the pumping action of the heart, it can become stagnated in an underactive body. This problem is compounded when debris collects in the lymphatic system which normally contains more fluid than the blood stream. The causes of this are: not enough movement of the body, incompletely digested food, and poor bowel management. This may not seem right to many people, but if there is a lymphatic problem, you can be assured there is trouble in one or more of those areas, or all of them. So, we suggest some form of exercise, such as walking or playing, a digestaid, a natural bowel cleaner and a lymphatic cleaner. As a natural, non-habit forming laxative-cleaner (SEE: Cascara Sagrada, C.C.E.-W, Buckthorn, Senna.) Digestaids (SEE: Gentian, Sweet Root, Ginger, Carpenter's Square, Scarlet Pimpernel, D.-W, ST.-W.) Use of the lymphatic detergent L.C.-W will also provide the services of antibiotic and healer. As the lymphatics disgorge their stored poisons, be prepared for discharges of congestive material in the form of mucus or pus from any body opening: eyes, ears, nose, throat, urine, reproductive organs and glands, bowel and even the skin. Do not mistake this for an infection. IT IS NOT! It is an elimination of what was causing the problem. Don't run to your "real doctor" and have it dried up with drugs. This is no time to be so stingy you have to hold on to, even, corruption the body is trying desperately to let go of. If you wish a poison absorber to take you more comfortable during this time, then 5 to 20 drops of either Black Cohosh, Virginia Snake Root or Plantain every 2 to 3 hours, while awake, should do it. Use of an enema can also help greatly. Usually about 10 minutes after the enema, a person feels much relieved. Yes, take an enema, even if the bowels are loose. Diarrhea or loose bowels are an attempt by the body to give you a natural enema; so go ahead and complete the process of flushing out the offending and poisoned wastes, then the diarrhea will stop. With a newly cleaned and restored lymphatic system, with its cleaned lymph, everything it bathes as it circulates gets cleaner and cleaner. Not only will you prevent or correct a host of baffling diseases with long funny names, you'll feel great and look better. COMBINATION:Oregon Grape, Blue Flag (Wild Blue Iris), Marshmallow, Carpenter's Square, Mullein. DOSE:40 drops following meals or 3 times per day.
