ACS (All Cells Salts) 4 fl. oz.

Manufacturer: Pure Herbs, LTD.

Below is about historical observations and historical data relating to herbs. This document is not intended to be a substitute for medical advice by license physicians. All readers should consult a physician regularly in all matters related to medical problems. This includes the diagnoses and treatment of disease and all other physical and mental conditions.

BODILY INFLUENCES: The combination has a seafood taste and is most interesting because it has all of the 13 organic tissue salts, which are found in the body. Each different type of tissue in the body contains a different concentration of mineral salts and elements which make up its construction and insures its proper function. This combination contains all of them. It is truly a source of food for every cell in the body. Organic minerals will replace inorganic mineral build-ups in the body and this combination excels as a cleanser for that reason. The salts break up congestion in the cells and the fluid that surrounds them. This could be described as a type of chelation therapy. Not only is the cell-choking accumulation removed, but the new minerals and elements are right there to replace worn out parts. This represents a tremendous advance for herbal science. As the wastes are flushed free from the cells, the urine often clouds up and smells strange as well as with the bowel. There may be strange tastes in the mouth as the sinuses clean. Five to six 12-ounce portions of spring water should be taken daily to complete the flushing process. Sometimes this process continues for months, but at a safe rate. When the urine is no longer cloudy and the stool no longer has strange smells, the flushing is complete. A clean body is now ready to survive for a very long time. This combination is recommended for expectant mothers and while they breast feed their child. The children thus fed are calmer and quieter with improved development from the high quality of nutrients to be found in this combination.* **NOTE:** The appetite may decrease during this time and weight loss may occur due to the cleansing process; however, as this combination is also a food of the finest type, there is no need to worry and the increased energy is a blessing. **ALL CELLS SALTS (MINERALS)** can be used as a source of herbal calcium-magnesium.* **COMBINATION:** Bladderwrack, Atlantic Kelp, Cassava root and Irish Moss. **DOSAGE:** For general and all-purpose use for full spectrum mineral supplementation, take 40 drops three times per day. For oral chelation, start with 40 drops three to four times per day. Within the first three weeks of use, work up to 120 drops three to four times per day. It is okay to estimate the drops. A person soon learns to be quite accurate with this. Each time ACS is taken, 16 ounces of water should be taken with this to flush away what has been dissolved. If pregnant or nursing, take 40 drops three times per day.*This product has not been evaluated by the Food and Drug Administration.
