SIA-R-(SINUSES, ALLERGIES-REUBEN) - Brings a more complete approach to the relief of sinus problems. Allergies are often associated with and aggravate sinus conditions. Because of this, the effects of allergies must be handled to reduce the swelling as well as liquefying and draining the sinuses to relieve the pressure miseries. The problem of infections must be addressed with antibiotic herbs. The immune system must also be strengthened. SIA.-R does all four of these things and more. SIA.-R was developed from established herbal functions out of necessity and desperation to ease suffering. Through experience, the formula's originator, Reuben Schwartz, attests that SIA.-R has proven itself to be very effective in stopping allergies and opening up the sinuses. He does not recommend that SIA.-R be taken just all the time. It is meant to bring quick relief and to be taken only when needed. Golden Seal is a powerful antibiotic. Bayberry liquefies and drains hardened sinus deposits. Bitter Orange opens breathing passages of the lungs and elsewhere. Thyme is also a proven remedy for many kinds of breathing problems. Indian Tobacco relaxes spastic conditions and functions as a poison antidote. Capsicum rapidly re-establishes circulation. Wild Rose Hips (and its associated rutin and hesperidin) are one of the finest natural sources of Vitamin C for repair, antidoting poisons and fighting infections. They also act as a catalyst to make the herb team more effective. Siberian Ginseng (Indian Sarsaparilla) and Licorice Root works with the adrenal glands (one on top of each kidney) to produce at least four dozen anti-stress compounds such as adrenaline and natural cortisone. Blue Vervain provides gentle and effective comfort for irritated nerves. Black Cohosh is one of the swiftest of poison antidotes to alleviate suffering.* COMBINATION: Golden Seal, Bayberry, Thyme, Indian Tobacco, Capsicum, Wild Rose Hips, Siberian Ginseng, Licorice Root, Blue Vervain, Black Cohosh, Bitter Orange. SUGGESTED USE: When suffering, it is most helpful taken at the rate of 40 drops, in juice or water, every 10 - 15 minutes until relief.*This product has not been evaluated by the Food and Drug Administration.
