DISCONTINUED Z.C.B.-J (MUSCULAR DYSTROPHY) 4 fl. oz.

Manufacturer: Pure Herbs, LTD.

Below is about historical observations and historical data relating to herbs. This document is not intended to be a substitute for medical advice by license physicians. All readers should consult a physician regularly in all matters related to medical problems. This includes the diagnoses and treatment of disease and all other physical and mental conditions.

Z.C.B.-J 4 oz. (MUSCULAR DYSTROPHY) - Is a tragic and serious wasting away disease of the muscles of the body. Jake Schwartz and Sam Schwartz from Amish Country in Indiana did not accept this death pronouncement for their friends and worked diligently to find the cause of this problem. Their research and the work of others revealed the cause to be a Copper and Zinc imbalance within the body. An excess of Zinc causes a Copper deficiency. When there is too much Zinc, Copper is not absorbed properly and collagen and muscle tissue, which gives muscles their mass and size, cannot be produced and or replaced and the body wastes away. The person may, in advanced stages, resemble a walking skeleton. Environmental Zinc sources such as breathing Zinc fumes from manufacturing, drinking from chemically polluted ground water sources and from drinking particularly acid drinks from containers that have Zinc in their composition can be the cause of such imbalances. After using balanced Copper and Zinc herbal formulas on their friends and acquaintances, they are satisfied the problem can be solved and the disease of Muscular Dystrophy reversed. It is not recommended that a colloidal form of Copper be used to attack the problem. The use of Silver may also stop the utilization of Copper and disrupt the body's DNA (genetic material). You can say this is the genetic link when the body's normal use of natural Copper is interfered with. Zinc and Copper are said to "fight" each other. That is to say, if you have too much of one it keeps the other from being absorbed and then the person will suffer from a deficiency. The beautiful part of using herbs is that they have natural control mechanisms within them to balance out the system with respect to Copper and Zinc even when an herb contains both Copper and Zinc. Contains the following herbs: SCULLCAP, SAGE, DANDELION ROOT, PLANTAIN, CHIPPEWA PINE AND BLUE VERVAIN. DOSAGE: The recommended daily use is 1 tsp. 3 times per day.
