AEA-B (Allergy, Emphysema, Asthma) 4 fl. oz.

Manufacturer: Pure Herbs, LTD.

Below is about historical observations and historical data relating to herbs. This document is not intended to be a substitute for medical advice by license physicians. All readers should consult a physician regularly in all matters related to medical problems. This includes the diagnoses and treatment of disease and all other physical and mental conditions.

AEA-B is a formula distinguished by its success. It was developed by the noted American herbalist and natural practitioner, Dr. William Horosh, for alleviating adverse conditions that primarily attack the respiratory system and those who suffer from allergies. AEA-B is in demand especially during the spring and late summer months when pollen, mold spores, dust and various types of debris are a plague to many. AEA-B helps during the winter months when the dry, stale air of artificial heating is constantly re-circulated and aggravates breathing problems. AEA-B contains lung herbs that immediately open breathing passages. Indian Tobacco and Thyme. Indian Tobacco relaxes spastic airways and rids them of hard, dried mucous. Thyme, works by actively opening respiratory passageways and acting, in many ways, like a natural cortisone. Licorice Root nourishes the adrenal glands, one on top of each kidney, so that they can make more than two dozen different anti-stress compounds, including your own natural cortisone. The combination, HERBAL ADJUSTMENT, within this combination, immediately increases circulation and thus, oxygenation and carries the other herbs or this combination into the tissues. Wild Rose Hips contain a complete form of natural Vitamin C that protects, repairs, prevents and corrects fragile capillaries. It is here that oxygen is absorbed and the waste gas, carbon dioxide, is released. This produces the energy to power the process of life and for correction and refreshment of a tired and exhausted system.

COMBINATION: Wild Rose Hips, Licorice Root, Indian Tobacco, Thyme, Herbal Adjustment (Black Cohosh, Blue Vervain, Capsicum, Indian Sarsaparilla, Indian Tobacco)

DOSAGE: 40 to 80 drops as needed. As a maintenance, 40 to 80 drops three times per day. AEA-B can also be rubbed into the chest externally, front and back, several times per day for a continuing corrective action. After applying AEA-B, place a cotton towel on the chest and wear a warm natural fiber garment. This helps to drive the herbs in and breaks loose dried and/or congestive mucous.

NOTE: When using AEA-B avoid contact with eyes, underarm and private areas. If an accident, no permanent damage is known to occur, but there is a sensation of great heat due to the Herbal Adjustment portion of this formula. A person might panic if they don't know this. Have patience and calm will return.
