

TOOTHPASTE > doTERRA SuperMint Toothpaste

doTERRA SuperMint Toothpaste

Manufacturer: dÅ•TERRA

Brushing twice a day with doTERRA SuperMint Toothpaste, along with practicing good dental care, can help reduce cavities and plaque formation. Fluoride-free doTERRA SuperMint Toothpaste contains hydroxyapatite—a naturally occurring calcium and phosphorus compound. Emerging research indicates hydroxyapatite may help remineralize and restore enamel, making teeth feel stronger, smoother, healthier, and less sensitive to hot or cold. doTERRA SuperMint Toothpaste also provides hydrated silica and calcium carbonate to gently polish teeth. The clean mint flavor makes brushing a pleasant, satisfying way to start and end each day.

Vegan-Friendly • No Artificial Colors or Flavors • Fluoride-Free Size: 4.2 oz / 125 g

Primary Benefits

Provides hydroxyapatite to help preserve and rebuild tooth enamel.

Delivers the doTERRA SuperMint Mentha Blend of Peppermint, Japanese Mint, Bergamot Mint, and Spearmint essential oils for crisp, clean flavor.

Includes hydrated silica and calcium carbonate, which are natural polishing agents.

Uses

Brush thoroughly at least twice per day or as directed by your dentist or physician. For children under two years old, consult your family physician.

>P>

Cautions

Use only as directed. Keep out of reach of children.
