Below is about historical observations and historical data relating to herbs. This document is not intended to be a substitute for medical advice by license physicians. All readers should consult a physician regularly in all matters related to medical problems. This includes the diagnoses and treatment of disease and all other physical and mental conditions.

CRAMPBARK AND FALSE UNICORN ROOT - Promotes fertility if children are desired. Taken by prospective mother. If after four months nothing is on the way, then please have prospective father take also. Corrects male and female reproductive organs. Prevents miscarriage and stops threatened miscarriage. If miscarriage threatens then 40 drops per hour, every hour while awake, no lifting, no reaching up, prop up feet when sitting, wait on prospective mother. Continue in this manner until danger is over. Works quickly if pregnancy is "good". Settles stomach and cleans the blood stream. COMBINATION:Crampbark, False Unicorn Root. DOSE:40 drops, 3 times per day faithfully, and as given above. Usually, within a year you should either be feeding or choosing names. The longest recorded case which was pronounced "medically hopeless" took three years and then a happy, healthy baby girl was born to a happy, healthy mother.
